Journal of Pediatric Ophthalmology

Cumulative Index — Vol. XIII 1976

Nos. 1-6

Subject Index

Abnormal macular arteriovenous communication: Kelman Wisnia; Daniel Toussaint. 4:196.

Anomalies of the retinal veins and their incidence: Khalid J. Awan. 6:353.

Aplasia of the optic nerve: Loren E. Little; Paul V. Whitmore; Theron W. Wells, Jr. 2:84.

Arachnoiditis and VECP change: Lloyd M. Wilcox, Jr.; R. Michael Scott. 6:346.

Atypical vertical retraction syndrome: a case study: Kalayanee Pruksacholawit. 4:215.

Bilateral retinoblastoma and verbal intelligence: Eugene A. Levitt. 4:234.

Clinical applications of research in strabismus: Norman F. Fisher. 5:283.

Clinical picture and management of subperiosteal hematoma of the orbit: J. Reimer Wolter; John A. Leenhouts; Stanley W. Coulthard. 3:136.

Comparative study of the surgical management of congenital esotropia of 50Δ or less: Jeffrey B. Arnoult; Ora Yeshurun; Malcolm L. Mazow. 3:129.

Congenital upper eyelid retraction: Charles R. Leone, Jr.; Robert Lewis. 6:350.

Cornea in mucolipidosis IV, the: S. Merin; P. Nemet; N. Livni; M. Lazar. 5:289.

Corneal electroretinograms in children without sedation: Michael F. Marmor. 2:112.

Diagnostic significance of worm tracks in cases of pseudoglioma retinae, the: J. Reimer Wolter; S. Willard Wallace. 6:344.

Dyslexia and the open concept school: Malcolm L. Mazow. 4:232.

Ectopia lentis with Marfan's syndrome — case with a useful optical correction: William C. Bromley. 4:230.

Electroretinogram and visually evoked cortical potential in Tay-Sachs disease: a report of two cases: Yoshihito Honda; Masakatsu Sudo. 4:226.

Embryopathic time-table of cataract formation in congenital rubella: Calvin Hanna. 5:266.

Enucleations in Nigerian igbo children: Wilson I.B. Onuigbo. 3:165.

Euryblepharon with associated ocular anomalies: A.K. Gupta; Purnima Saxena. 3:163.

Experimental creeping muscle: Malcolm L. Mazow; Victor Leal. 3:168.

Familial retinoblastoma — a cautionary tale: John W. Howe; Neil Manson. 5:278.

Fascia lata sling in blepharoptosis: enhancement of results by postoperative adjustment: Ravelo V. Argamaso; Michael L. Lewin. 1:51.

Feathered eyebrows and high myopia: Barton L. Hodes. 3:159.

Fetal alcohol syndrome: Brian Altman. 5:255.

Flat preparations of the retinal vessels in Coats' disease: Peter R. Egbert; Chi-Chao Chan; Frank C. Winter. 6:336.

Freeze-cleaved replicas of the anterior surface of the vitreous body in premature infants: R. Pajor. 2:106.

Fusional balancing innervation in heterophoria for control of antipodal deviations at a null point: a previously undescribed type of binocular innervation, the: Martin J. Urist. 2:65.

Giant hairy nevus: preventable cause of amblyopia: Ronald L. Antinone; Eugene M. Helveston; James E. Bennet; Patricia Keeper. 4:192.

Histiocytosis x: a case report: S.G. Nag; Y. Dayal; K.S. Ratnaker. 1:40.

Hyphema in infancy and childhood: a brief review and report of an unusual case: Robert S.L. Kinder; Richard M. Cowett. 3:139.

Incidence of retinoblastoma in Malawi: David BenEzra; M.C. Chirambo. 6:336.

Infantile cataracts, coats' disease, and ketotic hypoglycemia: Jacob T. Wilensky; Morton F. Goldberg; Fuad Ziyal; Paul W.K. Wong. 2:75.

Isolated oculomotor nerve palsy in childhood from leptomeningeal polymorphic cell sarcoma: Neil R. Miller. 4:211.

Juvenile glaucoma in the Rubinstein-Taybi syndrome: Norman S. Levy. 3:141.

Lid lesions of childhood: a histopathologic survey at the Wilmer Institute (1923-1974): Marcos T. Doxanas; W. Richard Green; Juan J. Arentsen; Frederick J. Elsas. 1:7.

Massive congenital ocular toxoplasmosis: Milton C. Pettapiece; David A. Hiles; Bruce J. Johnson. 5:259.

New approach to the Hirschberg test, a: Mauricio Brik. 3:132.

Ocular pathology of Lowe's syndrome in a female infant: Bruce L. Johnson; David A. Hiles. 4:204.

Optic disc pigmentation associated with a field defect following chickenpox: David S. Taylor; T.J. ffytche. 2:80.

Panuveitis — presenting symptom of systemic sarcoidosis in a child: Conrad L. Giles; Irwin Handleman. 4:189.

Pediatric dosing considerations in ophthalmology: Thomas F. Patton; Joseph R. Robinson. 3:171.

Panuveitis — presenting symptom of systemic sarcoidosis in a child: Conrad L. Giles; Irwin Handleman. 4:189.

Pediatric dosing considerations in ophthalmology: Thomas F. Patton; Joseph R. Robinson. 3:171.

Perforating injuries of the eye in childhood: J. Scharf; S. Zonis. 6:326.
Physiognomy and the eye: James G. Ravin; Carole S. Crachler. 5:304.
Recurrence risks for retinoblastoma: a model for autosomal dominant disorders with complex inheritance: Robert Nussbaum; Jennifer Puck. 2:89.
Recurrent nonaccidentally inflicted chemical eye injuries to siblings: David Taylor; Arnon Bentovim. 4:238.
Refraction, a programmed text: Robert D. Reinecke; Robert J. Herm. 4:243.
Retinoblastoma in an eighteen-year-old male: Jerry A. Shields; Joseph B. Michelson; Brian C. Leonard; Robert Thompson. 5:274.
Rhinosporidiosis in children: S. Kapoor; G.C. Sood; Mahableshwar; M. Sood. 2:103.
Rod monochromatism — an incomplete form: V. Godel; L. Regenbogen; A. Adam; R. Stein. 4:221.
Space occupying orbital lesions in Indian children: a clinical study of 66 consecutive cases: Dhan Krishna Sen; Hari Mohan. 5:296.
Special blood supply of the retina in optic nerve gliomas, the: J. Reimer Wolter. 4:198.
Strabismus in children with cerebral palsy: Norman S. Levy; Barbara Cassin; Michael Newman. 2:72.
Surgery and results following traumatic cataracts in children, the: David A. Hiles; P. Harold Wallar; Albert W. Biglan. 6:319.
Tapeto-retinal degeneration and familial juvenile nephronophthisis (FJN): A.Th.M. van Balen; J.J.M. van Collenburg. 6:329.
Thrombosis of the central retinal artery in retinoblastoma: J. Reimer Wolter. 2:99.
"Tissue drag" with polyglycolic acid (Dexon) and polyglactin 910 (Vicryl) sutures in strabismus surgery: Leonard Apt; Andrew Henrick. 6:360.
Trabeculectomy for adolescent onset glaucoma in the Sturge-Weber syndrome: Paul O. Keverline; David A. Hiles. 3:144.
Undescribed combination of ocular (hypotelorism, optic disc anomaly, microcornea, exotropia), facial, auricular, phonic and other anomalies: Khalid J. Awan. 3:149.
Unusual eyelid involvement in tuberous sclerosis: Christine Zolli; Merlyn M. Rodrigues; Gerard M. Shannon. 3:156.
Use of contact b mode ultrasound in pediatric ophthalmology, the: D.R. Mallek; M. Oliver. 1:45.

Book Reviews — Titles

Adler's physiology of the eye: clinical application, sixth edition: Robert A. Moses (ed). 1:57.
Advances in vitreous surgery: Alexander Rodman Irvine; Conor O'Malley. 5:308.
Color atlas of ophthalmological diagnosis: M.A. Bedford. 1:57.
Concussive and penetrating injuries of the globe and optic nerve: Thomas E. Runyan. 1:56.
Differential diagnosis of intraocular tumors: J. Donald M. Gass. 4:244.
Even you can give a talk: David E. Gootnick. 6:365.
Gordon's medica! management of ocular disease, second edition: Edward A. Dunlap. 5:308.
Low vision: Eleanor E. Faye; Clare M. Hood. 6:367.
Management of ocular injuries: David Paton. 3:179.
Ocular motility and strabismus: Marshall M. Parks. 2:117.
Ocular syndromes: Walter J. Geeraets. 5:307.
Oculoplastic surgery and trauma: Pierre Guibor. 6:366.
Ophthalmic contact B-scan ultrasonography for the clinician: Nathaniel R. Bronson II; Yale L. Fisher; Norman C. Pickering; Edwin M. Trayner. 6:365.
Pediatric ophthalmology: Robison D. Harley (ed). 1:56.
Perinatal addiction: Raymond D. Harbison. 4:243.
Practical ophthalmic plastic and reconstructive surgery: M.J. Reeh; C.K. Beyer; G.M. Shannon. 6:366.
Strabismus and amblyopia: Frank W. Newell. 2:117.
Structure and function in disease monograph series: the eye: Gordon K. Klintworth. 3:179.
Synopsis of ophthalmology, a: J.L.C. Martin-Doyle; Martin K. Kemp. 4:244.
Visual fields, the: David O. Harrington. 5:307.
Visual optics and refraction a clinical approach: David D. Michaels. 2:117.
